Pathways Triple P

What is the course
Pathways Triple P has been developed as an intensive intervention program for parents who have difficulty regulating their emotions and as a result are considered at risk of physically or emotionally harming their children. Pathways Triple P requires parents to have received Level 4 sessions teaching them positive parenting and child management skills. The Pathways Triple P program can be completed in either a group or on an individual basis over two to five 60-90 minute sessions. There are three core modules that provide parents with support and to learn new attributional styles and anger management techniques that will assist in improvement and/or maintenance of positive parenting skills.

Families suitable for course
Parents who benefit from Pathways Triple P are those that persistently make negative misattributions about why their child misbehaves and have difficulty managing their anger when interacting with their child. They have usually completed a Level 4 program and need further personal support to improve or maintain positive parenting skills.

Outline of parent sessions

**Module 1, Session 1: Parent traps.** During this session, parents learn to identify parent traps, understand the impact of their own behaviour on their children, and identify dysfunctional attributions.

**Module 1, Session 2: How to get out of the parent trap.** This session covers the reasons parents get caught in parent traps and teaches parents thought switching and breaking out of a parent trap.

**Module 2, Session 1: Understanding anger.** This session introduces cognitive behavioural strategies to recognise and understand anger, how to stop anger escalating, abdominal breathing and relaxation techniques, and planning pleasurable activities.

**Module 2, Session 2: Coping with anger.** During this session parents will learn to catch unhelpful thoughts, develop personal anger coping statements, challenge unhelpful thoughts, and develop coping plans for high risk situations.

**Module 3, Session 1: Maintenance and closure.** This final session focuses on how parents can maintain changes, problem solve for the future, and create future goals.
