Triple P - Positive Parenting Program®

Triple P Course Summaries
Overview
The Selected (Seminars) Triple P Provider Training Course teaches Triple P Providers the skills to conduct parenting information seminars for parents with children up to 12 years. Selected Triple P is suitable as a universal prevention strategy where it is offered to parents entering an intervention or school age service.

Selected interventions are typically delivered through primary care services including maternal and child health services, general practitioners and family doctors, day care centres, kindergartens, and schools. These services are well positioned to provide brief information presentations to groups of parents.

The Triple P Selected Seminar Series consists of three 60-minute seminars (plus 30-minutes for questions) covering the following topics:
1. The power of positive parenting.
2. Raising confident, competent children.

The seminar series may also assist parents with specific concerns about their child’s behaviour by building awareness of other Triple P services. This level of intervention is designed for the management of discrete child problem behaviours that are not complicated by other major behaviour management difficulties or family dysfunction.

Learning Outcomes
On completion of this program, practitioners will have knowledge and skills in the following areas:
• Organising a successful seminar series.
• Presentation of the seminar series.
• Core principles of positive parenting and behaviour change.
• Specific positive parenting strategies for promoting children’s development.
• Responding to parents’ questions.

Estimating the number of program resources required for parents
Where Selected Seminars are considered part of core business for organisations it can be expected that each trained practitioner will run 2 rounds of the 3 seminars every year (6 seminars) with an average of 50 parents or carers attending each seminar. This equates to 300 seminar places.

Program Resource Formula
1 x Seminar Tip Sheet per seminar place
Primary Care Triple P Provider Training Course

Overview
The Primary Care Triple P Training Course is relevant to practitioners who regularly offer advice and support to parents with children up to 12 years during focused consultations carried out in the course of providing routine health surveillance and care. Using this model, practitioners have 3 to 4 consultations (15- to 30-minutes) with families over a 4 to 6 week period.

Learning Outcomes
On completion of this program, practitioners will have knowledge and skills in the following areas:
- Early detection and effective management of child behaviour problems.
- Core principles of positive parenting and behaviour change.
- Specific positive parenting strategies for promoting children’s development.
- Effective parent consultation, including active skills training.
- Identification of indicators suggesting more intervention is required and appropriate referral procedures.

Estimating the number of program resources required for parents
Where Primary Care Triple P consultations are conducted as part of core business it can be expected each practitioner will see 50 parents or carers per year. Thus, each practitioner would require 150 tip sheets (any combination of topics) and 50 Positive Parenting Booklets per annum.

What Triple P practitioner resources are included with training?
Each practitioner will receive a copy of the following at training:
- Practitioner’s Kit for Primary Care Triple P (includes Practitioner’s Manual and Consultation Flip Chart).
- Triple P Tip Sheet Series – Sample Pack. (includes the Positive Parenting Booklet and a sample of the Triple P Tip Sheet Series).
- Every Parent’s Survival Guide [DVD].

Do pre-requisites apply?
No Triple P pre-requisites apply.

Who is best suited to this course?
This course is best suited to practitioners working in a focused consultation format with families experiencing mild behavioural/emotional difficulties with recent onset, including school counsellors, nurses, home visitors, family physicians, paediatricians, and other allied health professionals.

Note: Practitioners trained in Primary Care Triple P are eligible to provide Brief Primary Care Triple P sessions with parents. For more information contact TPI.

Program Resource Formula
3 x Tip Sheets per Family
1 x Positive Parenting Booklet per family
Overview
The Triple P Discussion Groups Provider Training Course is relevant to practitioners who regularly offer advice and support to parents with children up to 12 years. Using this model, practitioners will facilitate a 1-session 2-hour group discussion with an average of 10 parents.

The discussion groups are designed to provide an overview and introduction to the principles of positive parenting for any interested parent. The discussion group topics are:

- Hassle free shopping with children.
- Managing fighting and aggression.
- Developing good bedtime routines.
- Dealing with disobedience.

Learning Outcomes
On completion of this program, practitioners will have knowledge and skills in the following areas:

- Early detection and effective management of child behaviour problems.
- Core principles of positive parenting and behaviour change.
- Specific positive parenting strategies for promoting children’s development.
- Effective parent consultation.
- Use of active skills training strategies in a group format.
- Group dynamics and common process issues.
- Identification of indicators suggesting more intervention is required and appropriate referral procedures.

Estimating the number of program resources required for parents
Where Triple P Discussion Groups are conducted as part of core business, it can be expected each practitioner will facilitate 10 group sessions each with an average of 10 parents or carers. Thus, each practitioner would require 100 Triple P Discussion Group Workbooks (any combination of the four topics) per annum.

Program Resource Formula
1 x Triple P Discussion Group Workbook per family
# Overview

The Group Triple P Provider Training Course skills practitioners to deliver a broad focused parenting support program to groups of parents with children up to 12 years. Group Triple P is suitable for parents with concerns about their child’s behaviour or who wish to learn a variety of parenting skills that will promote their child’s development and potential. Group Triple P is suitable as a universal prevention strategy where it is offered to parents entering an early intervention or school age service.

Group Triple P is delivered to parents over the course of 8 weeks. The program involves 5 (2-hour) group sessions that educate and actively train skills, and three (15- to 30-minute) individual telephone consultations that follow a self-regulatory format to facilitate independent problem solving.

# Learning Outcomes

On completion of this program, practitioners will have knowledge and skills in the following areas:

- Application of key parenting strategies to a broad range of target behaviours.
- Strategies for promoting generalisation and maintenance of behaviour change.
- Use of active skills training strategies in a group format.
- Group dynamics and common process issues.
- Telephone support consultations with parents.
- Identification of indicators suggesting more intervention is required.
- Appropriate referral procedures.
- Risk and protective factors operating within families.

# Estimating the number of program resources required for parents

Where Triple P is adopted within organisations as part of core business it is expected that each practitioner would conduct, on average, 3 group programs per year with approximately 10 parents or carers in each program. Thus, each practitioner would require 30 copies of *Every Parent’s Group Workbook* per annum.

---

### Program Resource Formula

1 x *Every Parent’s Group Workbook* per family
Overview
The Standard Triple P Provider Training Course skills practitioners to deliver an intensive broad focused parenting support intervention individually to parents with children up to 12 years. Standard Triple P is suitable for parents with concerns about their child’s behaviour or who wish to learn a variety of parenting skills that will promote their child’s development and potential.

Standard Triple P is designed as a 10 session intervention with each session being approximately 1-hour in duration. The intervention involves a thorough assessment of parent-child interaction, the application of parenting skills to a broad range of target behaviours and the use of generalisation enhancement strategies to promote parental autonomy. The course provides practitioners the opportunity to develop advanced assessment and intervention skills.

Learning Outcomes
On completion of this program, practitioners will have enhanced knowledge and skills in the following areas:

• Early detection and effective management of child behaviour problems.
• Risk and protective factors operating within families
• Core principles of positive parenting and behaviour change.
• Advanced assessment of child and family functioning
• Application of key parenting strategies to a broad range of target behaviours.
• Strategies for promoting generalisation and maintenance of behaviour change.
• Identification of indicators suggesting more intervention is required.
• Appropriate referral procedures.

Estimating the number of program resources required for parents
Where Triple P is adopted within organisations as part of core business it is expected that each practitioner could conduct, on average, 250 consultations per year equating to 25 parents or carers per year (given 10 sessions per Standard Triple P delivery per family). Thus, each practitioner would require 25 Every Parent’s Family Workbooks per annum.
Overview

The Selected (Seminars) Teen Triple P Provider Training Course teaches Triple P Providers the skills to conduct parenting information seminars for parents with teenagers up to 16 years. Selected Teen Triple P is suitable as a universal prevention strategy where it is offered to parents of teens transitioning to high school.

Selected interventions are typically delivered through primary care services including youth health services, colleges and high schools. These services are well positioned to provide brief information presentations to groups of parents.

The Triple P Selected Teen Seminars series consists of three 60-minute seminars (plus 30-minutes for questions) on the following topics:
1. Raising responsible teenagers.
2. Raising competent teenagers.
3. Getting teenagers connected.

The seminar series may also assist parents with specific concerns about their teenager’s behaviour by building awareness of other Triple P services. This level of intervention is designed for the management of discrete teen problem behaviours that are not complicated by other major behaviour management difficulties or family dysfunction.

Learning Outcomes

On completion of this program, practitioners will have knowledge and skills in the following areas:
• Organising a successful seminar series.
• Presentation of the seminar series.
• Core principles of positive parenting and behaviour change.
• Specific positive parenting strategies for promoting teenagers’ development.
• Responding to parents’ questions.

Estimating the number of program resources required for parents
Where Selected Teen Seminars are considered part of core business for organisations it can be expected that each trained practitioner will run 2 rounds of the 3 seminars every year (6 seminars) with an average of 50 parents or carers attending each seminar. This equates to 300 seminar places.

What does the cost of the training include?
• 2 training days (maximum of 20 practitioners).
• 1 pre-accreditation workshop day.
• 1 accreditation workshop undertaken 6-8 weeks post training. Each practitioner attends only one half-day workshop (maximum of 10 practitioners attending per half day).
• Training materials include: participant notes and questionnaires/evaluation forms for each practitioner.
• Triple P practitioner resources (refer below for description).

What Triple P practitioner resources are included with training?
Each practitioner will receive a copy of the following:
• Facilitator’s Kit for Selected Teen Triple P (includes a Facilitator’s Manual and CD-Rom with Seminar Series PowerPoint presentations).
• Triple P Tip Sheet Series – Seminar Series (includes a Tip Sheet from each of the 3 teen seminars).

Do pre-requisites apply?
No Triple P pre-requisites apply. Assumes an organisation has established a successful referral process for families requiring further assistance.

Who is best suited to this course?
This delivery modality is best suited to experienced and confident facilitators involved in education or health services e.g. school counsellors, nurses.

Program Resource Formula
1 x Teen Seminar Tip Sheet per seminar place
Level 3

Primary Care Teen Triple P Provider Training Course

Overview
The Primary Care Teen Triple P Training Course is relevant to practitioners who regularly offer advice and support to parents with teenagers up to 16 years during focused consultations carried out in the course of providing routine health surveillance and care. Using this model, practitioners have 3 to 4 consultations (15- to 30-minutes) with families over a 4 to 6 week period.

The Primary Care Teen Triple P Provider Training Course comprises attendance at a 2-day training program, followed some weeks later by demonstration of knowledge and competence in program delivery through a skills-based accreditation process.

Learning Outcomes
On completion of this course, practitioners should have skills and knowledge in the following areas:

• Early detection and effective management of teenager behaviour problems.
• Core principles of positive parenting and effective behaviour change.
• Factors influencing adolescent behaviour.
• Specific positive parenting strategies for promoting teenagers’ development.
• Identification of indicators suggesting more intensive intervention is required.
• Appropriate referral procedures.

Estimating the number of program resources required for parents
Where Primary Care Teen Triple P consultations are conducted as part of core business it can be expected each practitioner will see 50 parents or carers per year. Each of these families is likely to receive, on average 3 Tip Sheets (any combination of teen topics) plus the Positive Parenting for Parents of Teenagers Booklet. Thus, each practitioner would require 150 Tip Sheets and 50 Positive Parenting for Parents with Teenagers Booklets per annum.

Program Resource Formula
3 x Tip Sheets per family
1 x Positive Parenting for Parents with Teenagers Booklet per family

What does the cost of the training include?
• 2 training days (maximum of 20 practitioners).
• 1 pre-accreditation workshop day.
• 2 accreditation days undertaken 6-8 weeks post training. Each practitioner attends only one half-day workshop (maximum of 5 practitioners attending each workshop and a total of 10 practitioners attending per day).
• Training materials include: participant notes and questionnaires/evaluation forms for each practitioner.
• Triple P practitioner resources (refer below for detail).
• Access to the Triple P Provider Network for up to 20 Providers.

What Triple P practitioner resources are included with training?
Each practitioner will receive a copy of the following:
• Practitioner’s Kit for Primary Care Teen Triple P (includes Practitioner’s Manual and Consultation Flip Chart).
• Triple P Teen Tip Sheet Series–Sample Pack (includes Positive Parenting for Parent’s of Teenagers Booklet and a sample of the Teen Tip sheets).
• Every Parent’s Guide to Teenagers [DVD].

Do pre-requisites apply?
No Triple P pre-requisites apply.

Who is best suited to this course?
This course is best suited to practitioners working in a brief consultation format with families experiencing recent onset of mild behavioural/emotional difficulties with a teenager. Those practitioners include school counsellors, nurses, family physicians, paediatricians, and other allied health professionals.

Note: Practitioners trained in Primary Care Teen Triple P are eligible to provide Brief Primary Care Teen Triple sessions with parents. For more information contact TPI.
# Teen Triple P Discussion Groups Provider Training Course

## Overview

The Teen Triple P Discussion Groups Provider Training Course is relevant to practitioners who regularly offer advice and support to parents with teenagers (up to 16 years). Using this model, practitioners will facilitate a 1-session 2-hour group discussion with an average of 10 parents.

The discussion groups are designed to provide an overview and introduction to the principles of positive parenting for any interested parent. The discussion group topics are:

- Getting teenagers to cooperate.
- Coping with teenagers emotions.
- Building teenagers survival skills.
- Reducing family conflict.

## Learning Outcomes

On completion of this program, practitioners will have knowledge and skills in the following areas:

- Early detection and effective management of teen behaviour problems.
- Core principles of positive parenting and behaviour change.
- Factors influencing adolescent behaviour.
- Specific positive parenting strategies for promoting teenager’s development.
- Effective parent consultation.
- Use of active skills training strategies in a group format.
- Group dynamics and common process issues.
- Identification of indicators suggesting more intervention is required and appropriate referral procedures.

## Estimating the number of program resources required for parents

Where Teen Triple P Discussion Groups are conducted as part of core business, it can be expected each practitioner will facilitate 10 group sessions each with an average of 10 parents or carers. Thus, each practitioner would require 100 Teen Triple P Discussion Group Workbooks (any combination of the four topics) per annum.

## Program Resource Formula

1 x Teen Triple P Group Discussion Workbook per family

### Program Resource Formula
1 x Teen Triple P Family Workbook per family
Overview
The Selected (Seminars) Stepping Stones Triple P Provider Training Extension Course teaches Triple P Providers the skills to conduct parenting information seminars for parents of children with a disability up to 12 years. Selected Stepping Stones Triple P is suitable as a universal strategy where it is offered to parents entering an intervention or school age service.

Selected interventions are typically delivered through primary care services including maternal and child health services, general practitioners and family doctors, day care centres, kindergartens, and schools. These services are well positioned to provide brief information presentations to groups of parents.

The Stepping Stones Triple P Selected Seminar Series consists of three 60-minute seminars (plus 30-minutes for questions) covering the following topics:
2. Helping your child reach their potential.
3. Changing problem behaviour into positive behaviour.

The seminar series may also assist parents with specific concerns about their child’s behaviour by building awareness of other Triple P services. This level of intervention is designed for the management of discrete child problem behaviours that are not complicated by other major behaviour management difficulties or family dysfunction.

Learning Outcomes
On completion of this program, practitioners will have knowledge and skills in the following areas:
• Organising a successful seminar series.
• Presentation of the seminar series.
• Core principles of positive parenting and behaviour change.
• Specific positive parenting strategies for promoting children’s development.
• Responding to parents’ questions.

Estimating the number of program resources required for parents

This equates to 300 seminar places.

Program Resource Formula
1 x Stepping Stones Seminar Tip Sheet per seminar place.
Primary Care Stepping Stones Triple P Provider Training Course

Overview
The Primary Care Stepping Stones Triple P Training Course is relevant to practitioners who regularly offer advice and support to parents who have a child with a disability up to 12 years during focused consultations carried out in the course of providing routine health surveillance and care.

Primary Care Stepping Stones Triple P involves teaching parents to apply parenting skills to specific target behaviours using active skills training. Using this model, practitioners have 3 to 4 consultations (15- to 30-minutes) with families over a 4- to 6-week period.

Learning Outcomes
On completion of this course, practitioners should have skills and knowledge in the following areas:

- Early detection and effective management of child behaviour problems.
- Core principles of positive parenting and effective behaviour change.
- Specific positive parenting strategies for promoting children's development.
- Identification of indicators suggesting more intensive intervention is required.
- Appropriate referral procedures.

Estimating the number of program resources required for parents
Where Primary Care Stepping Stones Triple P consultations are conducted as part of core business it can be expected each practitioner may see, on average, 50 parents or carers per year. Each of these families is likely to receive, on average 2 booklets (any combination of topics) plus the Positive Parenting Booklet. Thus, each practitioner would require 100 Stepping Stones Triple P Primary Care Booklets and 50 Positive Parenting Booklets per annum.

Program Resource Formula
2 x Stepping Stones Triple P Primary Care Booklets per family
1 x Positive Parenting Booklet per family

What does the cost of the training include?
- 3 training days (maximum of 20 practitioners).
- 1 pre-accreditation workshop day.
- 2 accreditation days undertaken 6-8 weeks post training. Each practitioner attends only one half-day workshop (maximum of 5 practitioners attending each workshop and a total of 10 practitioners attending per day).
- Training materials include: participant notes and questionnaires/evaluation forms for each practitioner.
- Triple P practitioner resources (refer below for detail).
- Access to the Triple P Provider Network for up to 20 Providers.

What Triple P practitioner resources are included with training?
Each practitioner will receive a copy of the following:
- Practitioner’s Kit for Primary Care Stepping Stones Triple P (includes Practitioner’s Manual and Consultation PowerPoint CD).
- Stepping Stones Triple P Primary Care Booklet Series.
- Stepping Stones Triple P: A Survival Guide for Families with a Child with a Disability [DVD].

Do pre-requisites apply?
No Triple P pre-requisites apply.

Who is best suited to this course?
Those who work in a brief consultation format with families experiencing mild behavioural/emotional difficulties with recent onset with a child (e.g. family support workers, school councilors, special education teachers, nurses, family physicians, paediatricians and allied health professionals).

Note: In addition, organisations may expect practitioners to use additional booklets as part of one-off opportunistic Triple P consultations with families. Organisations may like to factor in additional booklets per family per practitioner to account for this.

Overview

The Group Stepping Stones Triple P Provider Training Course skills practitioners to deliver a broad focused parenting support program to groups of parents who have children with a developmental disability up to 12 years. Group Stepping Stones Triple P is suitable for parents with concerns about their child’s behaviour or who wish to learn a variety of parenting skills that will promote their child’s development and potential. Group Stepping Stones Triple P is suitable as a universal strategy to prevent behavioural and emotional problems in children with a developmental disability.

Group Stepping Stones Triple P is delivered to parents over the course of 9 weeks. The program involves 6 (2½-hour) group sessions that educate and actively train skills, and 3 (15- to 30-minute) individual telephone consultations that follow a self-regulatory format to facilitate independent problem solving.

Learning Outcomes

Practitioners successfully completing this program will have advanced knowledge and skills in the following areas:

• Application of key parenting strategies to a broad range of target behaviours.
• Strategies for promoting generalisation and maintenance of behaviour change.
• Use of active skills training strategies in a group format.
• Group dynamics and common process issues.
• Telephone support consultations with parents.
• Identification of indicators suggesting more intervention is required.
• Appropriate referral procedures.
• Risk and protective factors operating within families.

Estimating the number of program resources required for parents

Where Triple P is adopted within organisations as part of core business it is expected that each practitioner would conduct, on average, 5 group programs per year with approximately 7 families in each program. Thus, each practitioner would require 35 copies of Stepping Stones Triple P Group Workbook per annum.

Program Resource Formula

1 x Stepping Stones Triple P Group Workbook per family
Level 4

Standard Stepping Stones Triple P Provider Training Course

What does the cost of the training include?
- 3 training days (maximum of 20 practitioners).
- 1 pre-accreditation workshop day.
- 2 accreditation days undertaken 6-8 weeks post training. Each practitioner attends only one half-day workshop (maximum of 5 practitioners attending each workshop and a total of 10 practitioners attending per day).
- Training materials include: participant notes and questionnaires/evaluation forms for each practitioner.
- Triple P practitioner resources (refer below for description).
- Access to the Triple P Provider Network for up to 20 Providers.

What Triple P practitioner resources are included with training?
Each practitioner will receive a copy of the following:
- Stepping Stones: A Survival Guide for Parents of Children with a Disability [DVD].

Do pre-requisites apply?
No Triple P pre-requisites apply. However, it is desirable that practitioners have knowledge of child development, psychopathology and disability to undertake this training.

Who is best suited to this course?
Recommended for psychologists, psychiatrists, social workers, family counsellors, school guidance officers, behaviour management teachers and other allied health professionals who regularly consult with parents about child behaviour.

Overview
The Standard Stepping Stones Triple P Provider Training Course skills practitioners to deliver an intensive broad focused parenting support intervention individually to parents with children who have a developmental disability up to 12 years. Standard Stepping Stones Triple P is suitable for parents with concerns about their child’s behaviour or who wish to learn a variety of parenting skills that will promote their child’s development and potential.

Standard Stepping Stones Triple P is designed as a 10 session intervention with each session being approximately 1 hour in duration. The intervention involves a thorough assessment of parent-child interaction, the application of parenting skills to a broad range of target behaviours and the use of generalisation enhancement strategies to promote parental autonomy. The course provides practitioners the opportunity to develop advanced assessment and intervention skills.

Learning Outcomes
On completion of this program, practitioners will have enhanced knowledge and skills in the following areas:
- Early detection and effective management of child behaviour problems.
- Risk and protective factors operating within families.
- Core principles of positive parenting and behaviour change.
- Advanced assessment of child and family functioning.
- Application of key parenting strategies to a broad range of target behaviours.
- Strategies for promoting generalisation and maintenance of behaviour change.
- Identification of indicators suggesting the presence of additional family risk factors.

Estimating the number of program resources required for parents
Where Triple P is adopted within organisations as part of core business it can be expected that each practitioner could conduct, on average 8 or 9 Standard Stepping Stones Triple P consultations per week (350 consultations per year). This would equate to 35 different client families per year per practitioner (given 10 sessions per Standard Stepping Stones Triple P delivery per family). Thus, each practitioner would require 35 Stepping Stones Triple P Family Workbooks per annum.

Program Resource Formula
1 x Stepping Stones Triple P Family Workbook per family
Level 5

Overview
The Enhanced Triple P Provider Training skills practitioners to provide family interventions which address family factors that may impact upon, and complicate, the task of parenting. These include problems with parental mood and adjustment and partner conflict. Typically families access Level 5 Enhanced interventions after completion of a Level 4 intervention.

Enhanced Triple P consists of a review interview which involves a brief assessment of progress to date, 3 stand alone modules, and a closure session. The 3 modules consist of a maximum of three 60-90 minute sessions.

- The **Practice Sessions** Module assists parents with implementation in the home environment and generalisation.
- The **Coping Skills** Module teaches a range of cognitive and behavioural strategies to manage mood and cope with everyday stress. It is designed for parents who are experiencing problems with personal adjustment which interfere with their parenting ability.
- The **Partner Support** Module is designed for two parent families with relationship adjustment or communication difficulties. It introduces parents to a variety of skills to enhance their teamwork as parenting partners including communication and problem solving skills.
- The **Maintenance and Closure Sessions** Module provides a final opportunity to practise and plan for the future with a practitioner.

Learning Outcomes
On completion of this program, practitioners will have enhanced knowledge and skills in the following areas:

- Assessment of personal and relationship adjustment of parents.
- Specific strategies for improving personal coping skills and reducing parental stress, anxiety, and depression.
- Reducing parenting conflict, improving parents' communication skills and promoting partner support.
- Helping parents develop independent problem solving skills.
- Strategies for promoting generalisation and maintenance of behaviour change.

Estimating the number of program resources required for parents
Where Triple P is adopted by organisations as part of core business it can be estimated that a proportion of families accessing other Triple P interventions will require additional support in Enhanced Triple P (approximately 25 families per practitioner per annum). It is estimated that an average of 3 out of the available 4 supplementary workbooks are used by each family at this level of support.

Program Resource Formula
3 x Every Parent’s Supplementary Workbook Module per family

Overview
Group Lifestyle Triple P is a family intervention strategy designed for delivery to groups of parents who require information and practical strategies to help manage their children’s weight-related behaviour.

Specifically, Group Lifestyle Triple P is delivered to parents of overweight or obese children aged 5 to 10 years, over the course of 4 to 5 months (minimum 14 weeks). The program involves 10 (1½-hour) group sessions that educate and actively train skills related to nutrition, physical activity and positive parenting, and 4 (15- to 30-minute) individual telephone consultations that follow a self-regulatory format to facilitate individual family goal-setting and progress monitoring.

Learning Outcomes
Practitioners successfully completing this program will have advanced knowledge and skills in the following areas:
• Monitoring child growth using height, weight and BMI (Body Mass Index).
• Assessing child and family functioning.
• Strategies for promoting generalisation and maintenance of behaviour change.
• Use of active skills training strategies in a group format.
• Group dynamics and common process issues.
• Telephone support consultations with parents.
• Identification of indicators suggesting more intervention is required.
• Appropriate referral procedures.

Estimating the number of program resources required for parents
Where Triple P is adopted within organisations as part of core business it is expected that each practitioner would conduct, on average 2 group programs per year with approximately 10 parents or carers in each program. Thus, each practitioner would require 20 copies of Every Parent’s Group Lifestyle Workbook and Lifestyle Triple P active games booklet per annum.

Lifestyle Triple P Extension Day
A two-day Lifestyle Triple P Extension course is available for practitioners who have already completed training in Group Triple P, and wish to extend their services to include assisting families with child weight-management concerns.

Program Resource Formula
1 x Every Parent’s Group Lifestyle workbook per family
1 x Lifestyle Triple P active games booklet

What does the cost of the training include?
• 3 training days (maximum of 20 practitioners).
• 1 pre-accreditation workshop day.
• 2 accreditation days undertaken 6-8 weeks post training. Each practitioner attends only one half-day workshop (maximum of 5 practitioners attending each workshop and a total of 10 practitioners attending per day).
• Training materials include: participant notes and questionnaires/evaluation forms for each practitioner.
• Triple P practitioner resources (refer below for description).
• Access to the Triple P Provider Network for up to 20 Providers.

What Triple P practitioner resources are included with training?
Each practitioner will receive a copy of the following:
• Every Parent’s Survival Guide [DVD].

Do pre-requisites apply?
No Triple P pre-requisites apply. However, it is desirable that practitioners have knowledge of child development, psychopathology, physical science and food nutrition to undertake this training.

Who is best suited to this course?
Those who are able to provide long term regular group interventions, including school counsellors, nurses, psychologists, social workers.
## Overview

Family Transitions Triple P is a cognitive-behavioural family intervention designed to be delivered to parents who are experiencing personal distress from separation or divorce, which is impacting on, or complicating, the task of parenting.

A qualified provider typically delivers Family Transitions Triple P to parents over five group sessions before they complete a Level 4 Triple P program. Family Transitions Triple P assists in managing conflict with former partners, coping with distressing emotions and managing the transition from being a two-parent family to a single-parent family.

### Learning Outcomes

Practitioners successfully completing this program will have enhanced knowledge and skills in the following areas:

- Assessment of personal adjustment in parents following divorce.
- Specific strategies for improving personal coping skills and reducing parenting stress, anxiety, anger and depression.
- Specific strategies for reducing conflict between parents and improving communication.
- Strategies for promoting work, family, and play balance, and gaining appropriate social support.
- Helping parents develop independent problem solving skills.
- Use of consultation resources (audio visual materials and parent workbooks).

### Estimating the number of program resources required for parents

Where Triple P is adopted by organisations as part of core business it can be estimated that a proportion of families accessing Level 4 interventions will require additional support to help them to deal with separation and divorce. Organisations will need to determine what proportion of their clientele will require this Level 5 intervention. One Family Transitions Workbook and Relaxation CD is required for each parent.

### Program Resource Formula

- 1 x Family Transitions Workbook per family
- 1 x Family Transitions Relaxation CD per family

---

**Family Transitions Triple P Provider Training Course**

### What does the cost of the training include?

- 2 training days (maximum of 20 practitioners).
- 2 accreditation days undertaken 6-8 weeks post training. Each practitioner attends only one half-day workshop (a maximum of 5 practitioners attending each workshop and a total of 10 practitioners attending per day).
- Training materials include: participant notes and questionnaires/evaluation forms for each practitioner.
- Triple P practitioner resources (refer below for description).

### What Triple P practitioner resources are included with training?

Each practitioner will receive a copy of the following:

- Family Transitions Triple P- positive parenting after separation and divorce [DVD].

### Do pre-requisites apply?

Practitioners must have completed a Level 4 Triple P Provider Training Course.

This course includes training in Cognitive Behaviour Therapy (CBT) strategies and experience in this area is an advantage when completing the course.

### Who is best suited to this course?

Recommended for psychologists, psychiatrists, social workers, family counsellors, school guidance officers, behaviour management teachers and other allied health professionals.
Overview

An Indigenous Triple P Extension Course is available for those practitioners who are already accredited in Primary Care Triple P, Group Triple P, or Standard Triple P. The program offers flexible delivery and the session structure acts as a guide to practitioners.

When training in Indigenous Triple P Extension, practitioners are taught to apply the program to their preferred delivery format. Practitioners accredited in Primary Care Triple P will be taught to tailor the Primary Care program for Indigenous parents (accessing the Positive Parenting: A Survival Guide for Indigenous Families [DVD]). Standard Triple P providers will learn to tailor the Standard Triple P program using the Every Parent’s Workbook for Indigenous Triple P and the Positive Parenting: A Survival Guide for Indigenous Families [DVD] over 10 individual sessions. Practitioners accredited in Group Triple P will be taught to tailor the eight week group course for Indigenous families, using the Every Parent’s Workbook for Indigenous Triple P and the Positive Parenting: A Survival Guide for Indigenous Families [DVD].

Practitioners are also taught how to tailor program delivery to formal, informal, urban, rural and remote consultation settings.

Learning Outcomes

On completion of this program, practitioners will have knowledge and skills in the following areas:

• Awareness of the political and social context for parenting in the Indigenous community.
• Designing a consultation environment that is culturally sensitive and facilitates learning.
• Application of key parenting strategies to a broad range of target behaviours.
• Strategies for promoting generalisation and maintenance of behaviour change.
• Use of active skills training strategies in a group format.

What does the cost of the training include?

• 1 training day (maximum of 20 practitioners).
• Training materials include: participant notes and questionnaires/evaluation forms for each practitioner.
• Triple P practitioner resources (refer below for description).

What Triple P practitioner resources are included with training?

Each practitioner will receive a copy of the following:

• Every Parent’s Workbook for Indigenous Triple P (Group and Standard Triple P Providers only).
• CD-Rom with Group Indigenous Triple P PowerPoint presentations (Group Triple P Providers only).

Do pre-requisites apply?

Practitioners must have completed one of the following courses prior to enrolling in this course Primary Care, Group, or Standard Triple P.

Practitioners attending an extension training must all have completed the same Triple P pre-requisite to ensure tailoring of the training is consistent with their delivery modality.

Who is best suited to this course?

Recommended for practitioners who have a background in child development (e.g. child care worker, teacher, nurse, aboriginal health worker) and are likely to work more closely with families to deliver Indigenous Triple P (in either a group or individual format).

Program Resource Formula (Group and Standard Triple P)

1 x Every Parent’s Workbook for Indigenous Triple P per family
