WHAT IS SELECTED TRIPLE P?
A “light touch” parenting information presentation delivered to a large group of parents (20 to 200) who are generally coping well but have one or two concerns. There are three seminar topics with each taking around 60 minutes to present, plus 30 minutes for question time. The Selected Triple P Seminar Series is designed to be a brief introduction to the Triple P strategies and will give parents and carers you work with great ideas to take home and try out with their family.

WHO IS IT FOR?
Parents or caregivers, with children up to 12 years, interested in general information about promoting their child’s development. The series of seminars can also assist parents with specific concerns about their child’s behaviour or development. Parents are likely to benefit if their family is not complicated by significant behaviour problems or family stress. This intervention can also be useful as an introduction to the Triple P strategies for families who will access a more intensive intervention.

WHAT IS COVERED IN SESSIONS WITH PARENTS?

Seminar 1: Positive parenting
Practitioners introduce parents to the five key principles of positive parenting that form the basis of Triple P. These principles are:
• Ensuring a safe engaging environment.
• Creating a positive learning environment.
• Using assertive discipline.
• Having reasonable expectations.
• Looking after yourself as a parent.

Seminar 2: Raising confident, competent children
In this seminar, parents are introduced to six core building blocks for children to become confident and successful at school and beyond. These competencies are:
• Showing respect to others.
• Being considerate.
• Having good communication and social skills.
• Having healthy self-esteem.
• Being a good problem solver.
• Becoming independent.

Seminar 3: Raising resilient children
Parents are introduced to six core building blocks for children to manage their feelings and become resilient in dealing with life stress. These competencies are:
• Recognising and accepting feelings.
• Expressing feelings appropriately.
• Building a positive outlook.
• Developing coping skills.
• Dealing with negative feelings.
• Dealing with stressful life events.

HOW MUCH TIME IS NEEDED TO DELIVER THE INTERVENTION?
In addition to each seminar, the practitioner should allow time for preparing for the seminar and supervision. Please see the table below for an approximate delivery guideline time for each seminar.

WHAT IS INVOLVED IN PROVIDER TRAINING?
To provide Selected Triple P to families, practitioners must have completed an approved active skills training programme and demonstrated their knowledge and competence in programme delivery through a skills-based accreditation process. The table below provides an estimate of the time commitment for practitioners to attend training and support days, as well as time needed for preparation and peer support.

| NUMBER OF TRAINING DAYS (9.00AM - 4.30PM) | 2 days |
| PRE-ACCREDITATION DAY (9.00AM - 4.30PM) | 1 day |
| PREPARATION TIME FOR ACCREDITATION DAY | 4-6 hours (quiz and competency preparation) |
| ACCREDITATION DAY | Half day |
| PEER SUPPORT | 2-3 hours (hourly meetings per month) |
| TOTAL TIME | 5 days |

An Extension Course is available, please contact your Triple P representative for more information.

DO PRE-REQUISITES APPLY?
No Triple P pre-requisites apply. Assumes an organisation has established a successful referral process for families requiring further assistance (either to in person or online Triple P programmes).

WHAT ARE THE PROVIDER LEARNING OUTCOMES?
- Organising a successful seminar series.
- Presentation of the seminar series.
- Core principles of positive parenting and behaviour change.
- Specific positive parenting strategies for promoting children’s development.
- Responding to parents’ questions.

WHAT RESOURCES DO PRACTITIONERS RECEIVE?
Each practitioner will receive a copy of the following Triple P practitioner resources at training:
- Facilitator’s Kit for Selected Triple P (includes Facilitator’s Manual and Seminar Series PowerPoint presentations CD).
- Triple P Tip Sheet Series - Seminar Series (includes a tip sheet from each seminar).
**WHAT IS SELECTED TEEN TRIPLE P?**
A “light touch” parenting information presentation delivered to a large group of parents (20 to 200) who are generally coping well but have one or two concerns. WHAT IS SELECTED STEPPING STONES TRIPLE P?
A series of parenting information presentations for groups of parents (20 to 200) who have a child with a disability. There are three seminar topics with each taking around 60 minutes to present, plus 30 minutes for question time. The Selected Stepping Stones Triple P Seminar Series is designed to be a brief introduction to the principles of positive parenting, teaching children with disabilities new skills, and changing problem behaviour in children.

WHO IS IT FOR?
Parents or caregivers, who have children with a disability up to 12 years, interested in general information about promoting their child’s development. Parents are likely to benefit if their family is not complicated by significant behaviour problems or family stress. This intervention can also be useful as an introduction to the Stepping Stones Triple P strategies for families who will access a more intensive intervention.

WHAT IS COVERED IN SESSIONS WITH PARENTS?

Seminar 1: Positive Parenting for Children with a Disability
Practitioners introduce parents to the seven core principles of positive parenting. These principles are:

- Ensuring a safe engaging environment.
- Creating a positive learning environment.
- Using assertive discipline.
- Having reasonable expectations.
- Looking after yourself as a parent.
- Adapting to having a child with a disability.
- Being part of the community.

Seminar 2: Helping Your Child Reach Their Potential
In this seminar, practitioners build on the foundation seminar and show parents how they can use the positive parenting principles to promote their child’s development by teaching them new skills and behaviours. The six key steps to teach a new skill are:

- Choosing a skill to teach.
- Breaking the skill into steps.
- Choosing rewards.
- Deciding on when and where to teach.
- Using effective teaching strategies.
- Keeping track and review.

Seminar 3: Changing Problem Behaviour into Positive Behaviour
Parents are often uncertain how to manage problem behaviour in ways that help children learn alternative and more adaptive behaviour to take its place. Parents are introduced to the six key steps of how to do this. The steps covered include:

- Tracking the behaviour.
- Understanding why the behaviour is occurring.
- Changing events that occur before the problem.
- Encouraging alternative behaviour.
- Removing accidental rewards.
- Putting the plan into action.

WHAT IS PRIMARY CARE TRIPLE P?
A brief targeted intervention in a one-to-one format that assists parents to develop parenting plans to manage behavioural issues (e.g. tantrums, fighting, going shopping) and skill development issues (e.g. eating independently, toilet training, staying in bed at night). These focused consultations can be carried out by health professionals in the course of providing routine health care. Practitioners provide 3-4 sessions (15-30 minutes each) over a period of 4-6 weeks. Sessions can be done in person, over the phone, or as a combination of both.

WHO IS IT FOR?
Parents or caregivers with a specific concern about their child’s behaviour and prefer one-to-one consultations. They are likely to benefit when their child’s behaviour problems are mild and uncomplicated by a high level of family stress. Parents receiving this intervention sometimes then choose to do a Group Triple P course if problems persist.

WHAT IS COVERED IN SESSIONS WITH PARENTS?

Session 1: Assessment of the presenting problem
In this session, the practitioner conducts an initial interview, discusses options for intervention, and introduces the parent to keeping track of their child’s behaviour.

Session 2: Developing a parenting plan
In this session, the practitioner provides the parent with feedback of assessment results, helps the parent identify causes of their child’s behaviour problem, and helps to set goals for change. Then the practitioner introduces a relevant tip sheet which offers ideas from which to develop an individualised parenting plan to target the parent’s specific behaviour concern.

Session 3: Review of implementation
In this session, the practitioner uses a self-regulatory feedback process to assist the parent to review their implementation of their parenting plan and to set goals for further refinement if needed. Behavioural rehearsal in this session is used when parents need to rehearse specific parenting techniques. Obstacles to the implementation of their plan are discussed and problem-solved.

Session 4: Follow up
In this session, the practitioner reviews progress toward specific goals, assists the parent to further refine their parenting plan if needed, and discusses ideas to maintain positive changes. If necessary, referral options are discussed.

WHAT IS PRIMARY CARE TEEN TRIPLE P?
A brief targeted intervention in a one-to-one format that assists parents to develop parenting plans to manage behavioural issues (e.g. rudeness, disrespect) and skill development issues (e.g. independent problem solving, dealing with strong emotions, positive communication). These focused consultations can be carried out by health professionals in the course of providing routine health care. Practitioners provide 3-4 sessions (15-30 minutes each) over a period of 4-6 weeks. Sessions can be done in person, over the phone, or as a combination of both. During the sessions, parents learn about what influences the development of teenage behaviour problems and then develop an individualised parenting plan based on information sheets specifically targeting the parent’s area of concern.

WHO IS IT FOR?

PRIMARY CARE STEPPING STONES
TRIPLE P

WHAT IS PRIMARY CARE STEPPING STONES TRIPLE P?
Stepping Stones Triple P has been developed for parents of children with a disability. Primary Care Stepping Stones Triple P involves a brief one-to-one parenting intervention designed to target discrete problem behaviours or developmental skills (e.g. social skills, communication). Primary Care Stepping Stones Triple P has been evaluated with families of children with a range of disabilities (e.g. intellectual disability, autism spectrum disorders, cerebral palsy) and elevated levels of disruptive behaviour. Sessions are between 15-30 minutes. The first two sessions are conducted in person and the other sessions can be completed either in person or by telephone. The practitioner meets with the parent/s for up to four sessions over a period of six weeks and assists parents to develop parenting plans (behaviour support plans) to prevent the problem behaviour, teach needed skills, and manage misbehaviour.

WHO IS IT FOR?
Parents or caregivers of children with a disability (up to 12-years) with a specific concern about their child’s behaviour and require one-to-one consultation with active skills training. These parents may be unable to commit to regular treatment over longer periods of time. They are most likely to benefit if their child’s behavioural issues are not complicated by high levels of family stress. Some parents choose to do this programme as an introduction to parenting strategies and then may become interested in the more intensive Group Stepping Stones Triple P for further support.

WHAT IS COVERED IN SESSIONS WITH PARENTS?

Session 1: Assessment of the presenting problem
In this session, the practitioner conducts an initial interview, discusses options for intervention, and how the parent can keep track of their child’s behaviour.

Session 2: Developing a parenting plan
In this session, the practitioner provides the parent with feedback of assessment results and discusses causes of child behaviour problems. Parents then set goals for themselves and their child. They are introduced to booklets that provide information on a range of topics (e.g. social skills, early learning skills, disruptive behaviour, toileting). An individualised parenting plan is devised based on this format and content.

Session 3: Review of implementation
In this session, practitioners apply a self-regulatory feedback model to help the parent review how they have implemented their plan, to identify strengths and improvements, and to refine their use of specific strategies that may require further practise. Obstacles to the implementation of their plan are discussed and problem-solved.

Session 4: Follow up
In this session, the practitioner reviews progress toward specific goals, assists the parent to further refine their parenting plan if needed, and discusses ideas to maintain positive changes. If necessary, referral options are discussed.

HOW MUCH TIME IS NEEDED TO DELIVER THE INTERVENTION?
In addition to each session, the practitioner should allow time for preparing for the sessions and supervision. Please see the table below for an approximate delivery guideline time for each family.

Each practitioner will receive a copy of the following Triple P practitioner resources at training:
- Practitioner’s Kit for Primary Care Stepping Stones Triple P (includes Practitioner’s Manual and Consultation PowerPoint CD).
- Primary Care Stepping Stones Triple P Booklet Series.
- Stepping Stones: A Survival Guide for families with a child who has a disability [DVD].
TRIPLE P DISCUSSION GROUPS

WHAT IS TRIPLE P DISCUSSION GROUPS?
The Triple P Discussion Group Series includes parent discussion groups on commonly encountered problems such as disobedience, fighting and aggression, and managing situations such as shopping with children and bedtime. The discussion groups are designed to provide an overview of the positive parenting principles for any interested parent. Parents are actively involved throughout the 2-hour small group format discussions.

WHO IS IT FOR?
Parents or caregivers with a specific concern about their child’s behaviour. They are most likely to benefit when their concerns are around a relatively discreet, mild to moderate behavioural issue and when parents can independently implement parenting plans that are generated during each session. They are also encouraged to apply new parenting skills to other problems that may arise.

WHAT IS COVERED IN SESSIONS WITH PARENTS?

Topic 1: Dealing with disobedience
This discussion topic provides examples of common forms of disobedience and some reasons why children have difficulty learning to follow instructions. A number of positive parenting strategies are then introduced to help parents develop a personal plan to prevent disobedience, teach their child limits, and also to manage disobedience when necessary.

Topic 2: Managing fighting and aggression
In this session, parents are encouraged to share their experiences of aggressive and destructive behaviour from their children and discuss some of the reasons children fight. This group covers the skills that children need to be able to cooperate and get along with others. Parents learn how to teach skills such as sharing, communicating, and being gentle. They also prepare plans to manage times when fighting and aggression do occur.

Topic 3: Developing good bedtime routines
This discussion topic explores different problems parents commonly face at bedtime and some of the reasons why they happen. The skills children need to get into a good bedtime routine are discussed and parents are introduced to positive parenting strategies to help prevent problems. The approaches to encouraging children to stay in their own bed throughout the night are discussed: the gentle, the gradual, and the direct approach. All approaches are evidence-based and parents choose which approach suits them best.

Topic 4: Hassle-free shopping with children
This discussion topic uses shopping trips as an example of one of the most common times parents have to deal with difficult behaviour in public. Positive parenting strategies are discussed as step-by-step suggestions for preventing problems and teaching children how to behave on shopping trips. Parents develop individualised plans to manage problem behaviour during their own shopping trips and are encouraged to transfer new parenting strategies to other potentially difficult community situations.

HOW MUCH TIME IS NEEDED TO DELIVER THE INTERVENTION?
In addition to each discussion group, the practitioner should allow time for preparing for the sessions and supervision. Please see the table below for an approximate delivery guideline time for each group.

• Facilitator’s Manual for Triple P Discussion Groups.
TEEN TRIPLE P DISCUSSION GROUPS

WHAT IS TEEN TRIPLE P DISCUSSION GROUPS?
The Teen Triple P Discussion Group Series includes parent discussion groups on commonly encountered problems such as getting teenagers to cooperate, coping with teenagers’ emotions, reducing family conflict, and building teenagers’ survival skills. The discussion groups are designed to provide an overview of the positive parenting principles for all parents who are interested. Parents are actively involved throughout the 2-hour small group format discussions.

WHO IS IT FOR?
Parents or caregivers with a specific concern about their teen’s behaviour or development. They are most likely to benefit when their concerns are around a relatively discreet, mild to moderate problem behaviour and when parents can independently implement parenting plans that are generated during each session. They are also encouraged to apply new parenting skills to other problems that may arise.

WHAT IS COVERED IN SESSIONS WITH PARENTS?
Topic 1: Getting teenagers to cooperate
During this discussion, parents share some of their experiences and ideas about dealing with non-cooperation and discuss reasons why teenagers can be uncooperative. Several positive parenting strategies are introduced to help parents develop a plan to motivate their teenager to be cooperative at home.

Topic 2: Coping with teenagers’ emotions
In this session, parents discuss some of the reasons teenagers have emotional reactions and the skills that teens need to calm themselves down. Several positive parenting strategies are introduced to help parents teach their teen to better manage their emotions.

Topic 3: Building teenagers’ survival skills
This discussion topic explores why teenagers sometimes make risky decisions and how they can learn to keep themselves safe while gradually developing independence. Parents are introduced to positive parenting strategies to help their teen plan for situations which may potentially put their health or wellbeing at risk.

Topic 4: Reducing family conflict
During this discussion, parents share some of their experiences of conflict with their teenager and discuss why sometimes this occurs in families. Several positive parenting strategies are introduced to help parents teach their teens how to get along with other family members and resolve problems. Ways to manage times when conflict affects the whole family are also discussed.

HOW MUCH TIME IS NEEDED TO DELIVER THE INTERVENTION?
In addition to each discussion group, the practitioner should allow time for preparing for the sessions and supervision. Please see the table below for an approximate delivery guideline time for each group.

WHAT ARE THE PROVIDER LEARNING OUTCOMES?
- Early detection and effective management of teen behaviour problems.
- Core principles of positive parenting and behaviour change.
- Factors influencing adolescent behaviour.
- Specific positive parenting strategies for promoting teenager’s development.
- Effective parent consultation.
- Use of active skills training strategies in a group format.
- Group dynamics and common process issues.

GROUP TRIPLE P

WHAT IS GROUP TRIPLE P?
A broad-based parenting intervention delivered over eight weeks for parents of children up to 12-years. The programme involves five (2-hour) group sessions of up to 12 parents. Parents actively participate in a range of exercises to learn about the causes of child behaviour problems, setting specific goals, and using strategies to promote child development, manage misbehaviour, and plan for high-risk situations. Then there are three (15 to 30 minute) individual (telephone) consultations to assist parents with independent problem solving while they are practising the skills at home.

WHO IS IT FOR?
Parents or caregivers interested in promoting their child’s development and potential or they may have concerns about their child’s behavioural problems or simply wish to prevent behaviour problems from developing. Parents who have completed lower level interventions and have not achieved the goals they want, may benefit from a Group Triple P intervention. Parents need to be able to commit to all eight sessions.

WHAT IS COVERED IN SESSIONS WITH PARENTS?

Session 1: Positive parenting
This session provides parents with an introduction to positive parenting, why children behave as they do, and how to set goals for change. Parents submit a completed assessment booklet at the beginning of this session.

Session 2: Helping children develop
During this session, the practitioner discusses how to develop good relationships with children, how to encourage good behaviour, and the four strategies for how parents can teach their children new skills and behaviours.

Session 3: Managing misbehaviour
During this session, the practitioner offers additional strategies to assist parents with managing misbehaviour during this session. Parents will also learn to develop parenting routines to promote compliance and manage non-compliance from their children. They have an opportunity to rehearse these routines during the session.

Session 4: Planning ahead
This session covers family survival tips, identifying high-risk situations that still cause concern, and how to develop planning ahead routines to promote good child behaviour in high risk situations (e.g. shopping, learning how to take turns, fighting with siblings, getting ready for school). Parents also prepare for their individual consultations during this session.

Session 5-7: Using positive parenting strategies 1-3
The practitioner provides feedback from initial assessments that the family completed and then uses the self-regulatory feedback model to help parents review their implementation of planning ahead routines for their high-risk situations. From this, parents set goals for further refinement of their routines, if needed.

Session 8: Programme close
Parents return for a final group session to review progress, look at ways to maintain changes and plan for the future, and to close the programme. If necessary, referral options are discussed.

HOW MUCH TIME IS NEEDED TO DELIVER THE INTERVENTION?
In addition to consultations, the practitioner should allow time for preparing for the sessions and supervision. Please see the table below for an approximate delivery guideline time for each group.

DO PRE-REQUISITES APPLY?
No Triple P pre-requisites apply. However, it is desirable that practitioners have knowledge of child development to undertake this training.

WHAT ARE THE PROVIDER LEARNING OUTCOMES?
• Application of key parenting strategies to a broad range of target behaviours.
• Risk and protective factors operating within families.
• Strategies for promoting generalisation and maintenance of behaviour change.
• Use of active skills training strategies in a group format.
• Group dynamics and common process issues.
• Telephone support consultations with parents.
• Identification of indicators suggesting more intervention is required.
• Appropriate referral procedures.

WHAT RESOURCES DO PRACTITIONERS RECEIVE?
Each practitioner will receive a copy of the following Triple P practitioner resources at training:
• Facilitator’s Kit for Group Triple P (includes Facilitator’s Manual, CD with Group Triple P PowerPoint presentations, and Every Parent’s Group Workbook).
• Every Parent’s Survival Guide [DVD].
WHAT IS GROUP TEEN TRIPLE P?
A broad-based parenting intervention delivered over eight weeks for parents of teenagers up to 16-years who are interested in learning a variety of parenting skills. Parents may be interested in promoting their teenager’s development and potential or they may have concerns about their teenager’s behaviour. The programme involves five (2-hour) group sessions of up to 12 parents. Parents actively participate in a range of exercises to learn about the influences on adolescent behaviour, setting specific goals, and using strategies to promote a teenager’s skills development, manage inappropriate behaviour, and teach emotional self-regulation. Parents also learn how to plan around risk-taking behaviour and risky situations. Then there are three (15 to 30 minute) individual (telephone) consultations to assist parents with independent problem solving while they are practising the skills at home.

WHO IS IT FOR?
Parents or caregivers who have concerns about their teenager’s behavioural problems or simply wish to prevent behavioural problems from developing. Parents who have completed lower level interventions and have not achieved the goals they want, may benefit from a Group Teen Triple P intervention. Parents need to be able to commit to all eight sessions.

WHAT IS COVERED IN SESSIONS WITH PARENTS?

**Session 1: Positive parenting**
This session provides parents with an introduction to positive parenting, factors that influence teenagers’ behaviour, and how to set goals for change. Parents submit a completed assessment booklet at the beginning of this session.

**Session 2: Encouraging appropriate behaviour**
During this session, the practitioner discusses how to develop positive relationships with teenagers, increase desirable behaviour, teach new skills and behaviours, use behaviour contracts, and hold family meetings.

**Session 3: Managing problem behaviour**
In this session, parents learn how to develop family rules, deal with non-cooperation, acknowledge emotions, and use behaviour contracts. They have an opportunity to rehearse these routines in the session, to promote emotional self-regulation.

**Session 4: Dealing with risky behaviour**
This session covers identifying risky situations, routines to deal with risky behaviour, and family survival tips. Parents also prepare for their individual consultation sessions.

**Session 5-7: Implementing parenting routines 1-3**
The practitioner provides feedback from initial assessments that the family completed and then uses a self-regulatory feedback model to assist parents to review their implementation of parenting strategies and risky behaviour plans. From this, parents set goals for the further refinement of their routines, if needed.

**Session 8: Programme close.**
Parents return for a final group session to review progress and family survival tips, look at ways to maintain changes and problem-solving for the future, and to close the programme. If necessary, referral options are discussed.

HOW MUCH TIME IS NEEDED TO DELIVER THE INTERVENTION?
In addition to consultations, the practitioner should allow time for preparing for the sessions and supervision. Please see the table below for an approximate delivery guideline time for each group.

WHAT RESOURCES DO PRACTITIONERS RECEIVE?
Each practitioner will receive a copy of the following Triple P practitioner resources at training:
• Every Parent’s Guide to Teenagers [DVD].
WHAT IS GROUP STEPPING STONES TRIPLE P?
Group Stepping Stones Triple P has been developed for parents of children with a disability. Stepping Stones Triple P has been evaluated with families of children with a range of disabilities (e.g. intellectual disability, autism spectrum disorders, cerebral palsy) and elevated levels of disruptive behaviour. The programme involves six (2 ½ hour) group sessions that educate and actively train skills, and three (15 to 30 minute) individual telephone consultations to assist parents to refine the use of their parenting skills and to develop independent problem solving skills. A full behavioural and family assessment is completed before and after the group sessions.

WHO IS IT FOR?
Parents or caregivers of children with a disability (up to 12 years) who benefit from this programme are those that require or are interested in learning a broad-based range of parenting skills to promote child development and to manage challenging behaviours. The programme is appropriate to assist parents to prevent the development of problem behaviour or to change problem behaviour if it is occurring. Parents need to be able to commit to six group sessions and three telephone consultations.

WHAT IS COVERED IN SESSIONS WITH PARENTS?
Session 1: Positive parenting
This session provides parents with an introduction to positive parenting, causes of child behaviour problems, setting goals for change, and how to keep track of children’s behaviour.

Session 2: Promoting children’s development
During this session, the practitioner discusses how to develop positive relationships with children and how to encourage desirable behaviour.

Session 3: Teaching new skills and behaviours
This session teaches parents a range of techniques to teach children with disabilities skills in a range of areas, such as communication, problem-solving, self-care, and self-regulation.

Session 4: Managing misbehaviour and parenting routines
During this session, the practitioner offers strategies to assist parents with managing misbehaviour during this session. Parents will also learn to develop parenting routines to encourage children to follow instructions.

Session 5: Planning ahead
This session covers family survival tips, identifying high-risk situations, and developing planning ahead routines to implement over the next few weeks. Parents also schedule and prepare for the telephone consultations.

Session 6-8: Implementing parenting routines 1-3
The telephone sessions begin with the practitioner providing assessment feedback to parents and noting progress that has been made. Then the sessions are designed to assist parents in implementing behaviour change strategies in high-risk home and community sitations (e.g. travelling on public transport, haircuts, therapy sessions). The practitioner uses the self-regulatory feedback model to help parents identify goals for change and a problem-solving approach is used to assist parents to fine-tune any areas of difficulty.

Session 9: Programme close
Parents return for a final group session to review progress, look at ways to maintain changes, problem solve for the future, and to bring closure to the programme.

HOW MUCH TIME IS NEEDED TO DELIVER THE INTERVENTION?
In addition to consultations, the practitioner should allow time for preparing for the sessions and supervision. Please see the table below for an approximate delivery guideline time for each group.

WHAT RESOURCES DO PRACTITIONERS RECEIVE?
Each practitioner will receive a copy of the following Triple P practitioner resources at training:
• Stepping Stones: A Survival Guide for families with a child who has a disability [DVD].
STANDARD TRIPLE P

WHAT IS STANDARD TRIPLE P?
Standard Triple P provides parents with broadly focused parenting support and intervention on a one-to-one basis. The programme supports parents who have concerns about their child’s behaviour or development across various settings (e.g. disobedience in community settings, fighting and aggression, refusing to stay in bed or eat healthy meals). Over 10 sessions, parents identify the causes of child behaviour problems and set their own goals for change. They learn a range of parenting strategies to promote and develop positive behaviour for their child. The practitioner’s focus is on generalisation-enhancement strategies to promote parental autonomy throughout the intervention process.

WHO IS IT FOR?
Parents or caregivers who benefit from this intervention are those with children up to 12 years who are concerned about their child’s behaviour. Usually they prefer a one-to-one intervention and they need to be available to commit to 10 weeks of regular one-hour sessions. The programme is appropriate for children with moderate to severe levels of behavioural problems.

WHAT IS COVERED IN SESSIONS WITH PARENTS?

Session 1: Initial Interview
The parent is interviewed to gather comprehensive information about their child’s presenting behavioural concerns, developmental history, and family circumstances. They are asked to complete further assessment in the form of questionnaires and they are taught to use monitoring forms to track a specific child behaviour throughout the following week.

Session 2: Observation of family interaction and assessment feedback
The practitioner conducts an observation of child behaviour and parenting. Then they provide feedback to the parent from all forms of the assessment and develop a shared understanding of the nature, severity, and probable causes of current concerns. From there, treatment is negotiated and the parent sets goals for their own and their child’s behaviour changes.

Session 3: Promoting children’s development
The parent is presented with strategies that aim to enhance the quality of the parent-child relationship and promote a rich environment of encouragement and positive attention for the child. The parent identifies when and how these skills can be used and has the opportunity to practise.

Session 4: Managing misbehaviour
This session involves introducing the parent to strategies for dealing with misbehaviour, rehearsing a routine for managing non-compliance, and setting new homework tasks.

Session 5-7: Practice and feedback
These sessions assist the parent in using the behaviour change strategies. The practitioner observes a brief parent-child interaction where the parent has set goals to practise using specific parenting strategies. The practitioner then has the opportunity to encourage the parent’s self-evaluation and goal setting to refine the use of specific parenting strategies.

Session 8: Planned activities training
During this session, the parent identifies high-risk home and community activities (e.g. shopping trips), they learn to develop planned activities and routines to target specific behaviours, and select one of their routines to implement throughout the following week.

Session 9: Using planned activities training
During this session, the parent implements planned activities and routines to encourage independent play when busy and a structured play activity. The practitioner provides feedback and then observes the parent implement a final planned activities routine to get their child ready to go out.

Session 10: Programme close
The practitioner conducts a progress review and discusses family survival tips and how to keep up the changes that have been made. Future problem solving exercises and a final assessment are completed. If necessary, referral options are discussed.

HOW MUCH TIME IS NEEDED TO DELIVER THE INTERVENTION?
In addition to consultations, the practitioner should allow time for preparing for the sessions and supervision. Please see the table below for an approximate delivery guideline time for each group.

DO PRE-REQUISITES APPLY?
No Triple P pre-requisites apply. However, it is desirable that practitioners have knowledge of child development to undertake this training.

WHAT ARE THE PROVIDER LEARNING OUTCOMES?
- Early detection and effective management of child behaviour problems.
- Risk and protective factors operating within families
- Core principles of positive parenting and behaviour change.
- Advanced assessment of child and family functioning
- Application of key parenting strategies to a broad range of target behaviours.
- Strategies for promoting generalisation and maintenance of behaviour change.
- Identification of indicators suggesting more intervention is required and appropriate referral procedures.
WHAT IS STANDARD TEEN TRIPLE P?
A broadly focused parenting support intervention on a one-to-one basis for parents of teenagers up to 16 years. After thorough family assessment, parents set their own goals, learn ways to encourage positive behaviour for teens, and teach their teens new skills such as problem solving, conflict resolution, and self-regulation. Over 10 sessions, parents identify the influences on teenagers’ behaviour and set their own goals for change. Parents also learn ways to use appropriate consequences for problem behaviour (e.g. breaking family rules, taking inappropriate risks, emotional outbursts).

WHO IS IT FOR?
Parents or caregivers who have concerns about their teenager’s development and behaviour. They may be concerned that their relationship with their teen is not positive, that their teen has not learned independence and self-regulation skills, or that they have not found an effective way to discourage inappropriate or risk-taking behaviour. Parents are most likely to benefit if they can commit to completing the 10 weekly sessions.

WHAT IS COVERED IN SESSIONS WITH PARENTS?

**Session 1: Initial interview**
The parent is interviewed to gather comprehensive information about their teenager’s presenting behavioural concerns, developmental history, and family circumstances. They are asked to complete further assessment in the form of questionnaires and they are taught to use monitoring forms to track a specific teen behaviour throughout the following week.

**Session 2: Interview with teenager and family observation**
First, the teenager is interviewed to obtain their perspective on family functioning and any presenting problems. This also serves as an assessment of mental status. The parent and teenager are then observed holding a problem-solving discussion.

**Session 3: Sharing assessment findings**
The practitioner provides feedback to the parent from all forms of assessment and develops a shared understanding of the nature, severity, and probable causes of current concerns. From there, treatment is negotiated and the parent sets goals for their own and their teen’s behaviour changes.

**Session 4: Encouraging appropriate behaviour**
During this session, the parent is presented with three types of parenting skills that aim to enhance the quality of the parent-teenager relationship and promote a rich environment of encouragement and positive attention. These parenting skills include strategies for developing a positive relationship with their teenager, strategies for increasing desirable behaviour, and strategies for teaching new skills.

**Session 5: Using positive parenting strategies 1**
This session involves the parent and teen being observed to practise strategies such as part of a daily meeting or how to review a behaviour contract. The practitioner uses a self-regulatory feedback process to assist the parent to evaluate their strengths and areas for improvement. They then set goals to further refine their skills.

**Session 6: Managing problem behaviour**
During this session, the practitioner introduces the parent to strategies to reduce problem behaviour and to help teenagers learn to manage their emotions. An emotional behaviour routine is presented and rehearsed.

**Session 7: Using positive parenting strategies 2**
This session again involves both the teenager and their parent. They are observed during a structured interaction as they review how things are going. The practitioner again uses a self-regulatory feedback process to assist the parent to evaluate their strengths and areas for improvement. They then set goals to further refine their skills.

**Session 8: Dealing with risky behaviour**
This session introduces the parent to a routine for addressing teenagers’ risky behaviour, guides them through the steps of how to use the routine, and prompts them to use the routine at home in the coming week.

**Session 9: Using planning ahead routines**
This session assists the parent and their teenager to review how they have planned ahead for potential risky behaviour and situations. They have an opportunity to practise developing further plans with support and feedback from the practitioner.

**Session 10: Programme close**
The practitioner conducts a progress review and discusses family survival tips and how to keep up the changes that have been made. Future problem solving exercises and a final assessment are completed. If necessary, referral options are discussed.

**WHAT RESOURCES DO PRACTITIONERS RECEIVE?**

Each practitioner will receive a copy of the following Triple P practitioner resources at training:

- Every Parent’s Guide to Teenagers [DVD].
WHAT IS STANDARD STEPPING STONES TRIPLE P?
Standard Stepping Stones Triple P has been developed for parents of children with a disability. Stepping Stones Triple P has been evaluated with families of children with a range of disabilities (e.g. intellectual disability, autism spectrum disorders, cerebral palsy) and elevated levels of disruptive behaviour. Standard Stepping Stones Triple P begins with a comprehensive assessment of parent-child interaction and family issues. The intervention provides parents with comprehensive support in managing their child’s behaviour across various settings (e.g. disobedience, fighting and aggression, temper tantrums). The focus is on understanding the function of problem behaviour and teaching the child skills that can be used to replace misbehaviour. Over 10 one-to-one sessions, parents learn to set their own goals, work out what changes they would like to see in their child’s behaviour, and learn strategies to promote positive behaviour and deal with misbehaviour.

WHO IS IT FOR?
Parents or caregivers of a child with a disability (up to 12 years) who benefit from this programme have concerns about their child’s moderate to severe behavioural problems and are able to commit to up to 10 regular individual consultations, either in a clinic or in the family home.

WHAT IS COVERED IN SESSIONS WITH PARENTS?

**Session 1: Initial interview**
The parent is interviewed to gather comprehensive child and family information. Details of behavioural problems or issues are taken and parents are asked to complete a series of questionnaires designed to screen for factors that may be influencing child development or behaviour. In this session, parents are also introduced to a range of recording techniques that they can use to keep track of the behaviour/s of interest over the coming weeks.

**Session 2: Observation and sharing of assessment findings**
This session begins with an observation of parent-child interaction which is followed by a feedback discussion with the parent only. Practitioners use a guided participation model to engage parents in a review of all assessment information, developing a shared conceptualisation of the problem and its causes, then negotiating goals and treatment directions.

**Session 3: Promoting children’s development**
During this session, the parent learns the principles of positive parenting, strategies to develop positive relationships with their children, how to encourage desirable behaviour, and strategies to teach children new skills and behaviours.

**Session 4: Managing misbehaviour**
This session involves introducing the parent to strategies for dealing with misbehaviour, developing a parenting routine, and finalising their behavioural charts.

**Session 5-7: Practice sessions 1-3**
These sessions assist the parent in using the behaviour change strategies. The practitioner observes a brief parent-child interaction where the parent has set goals to practise using specific parenting strategies. The practitioner then has the opportunity to encourage the parent’s self-evaluation and goal setting to refine the use of specific parenting strategies.

**Session 8: Planning ahead**
During this session, the parent identifies high-risk home and community activities (e.g. shopping trips, therapy sessions, getting ready for school). The practitioner then teaches them how to develop planning ahead routines to prevent misbehaviour, encourage skill development, and manage misbehaviour in one or more of the parent’s identified high-risk situations. Parents then plan to implement their routines over the coming week.

**Session 9: Planning ahead practice session**
During this session, the parent practises encouraging their child to play independently while they discuss their planning ahead routines with the practitioner. The practitioner also observes the parent getting the child ready to go out and provides feedback before ending the session.

**Session 10: Programme close**
The practitioner conducts a progress review and discusses ideas with the parent to maintain good changes that have been made, how to solve problems in the future, and whether referral for further support is appropriate. The parent then completes a post-assessment similar to the initial questionnaire booklet they completed.

HOW MUCH TIME IS NEEDED TO DELIVER THE INTERVENTION?
In addition to consultations, the practitioner should allow time for preparing for the sessions and supervision. Please see the table below for an approximate delivery guideline time for each group.

DO PRE-REQUISITES APPLY?
No Triple P pre-requisites apply. However, it is desirable that practitioners have knowledge of child development to undertake this training.

WHAT ARE THE PROVIDER LEARNING OUTCOMES?
• Early detection and effective management of child behaviour problems.
• Risk and protective factors operating within families.
• Core principles of positive parenting and behaviour change.
• Advanced assessment of child and family functioning.
• Application of key parenting strategies to a broad range of target behaviours.
• Strategies for promoting generalisation and maintenance of behaviour change.
• Identification of indicators suggesting the presence of additional family risk factors.

WHAT RESOURCES DO PRACTITIONERS RECEIVE?
Each practitioner will receive a copy of the following Triple P practitioner resources at training:
• Practitioner’s Kit for Standard Stepping Stones Triple P (includes Practitioner’s Manual and Stepping Stones Triple P Family Workbook).
• Stepping Stones: A Survival Guide for families with a child who has a disability [DVD].
ENHANCED TRIPLE P

WHAT IS ENHANCED TRIPLE P?
Enhanced Triple P consists of four different modules delivered to families in 3 to 8 individualised consultations. The modules address family factors that may impact upon and complicate the task of parenting (e.g. parental mood, partner conflict).

WHO IS IT FOR?
Parents who benefit are those who present with family issues such as stress, poor coping, and/or partner conflict. They have usually completed a Level 4 programme and require extra support to make or maintain changes in parenting. They need to be able to commit to 3 to 8 sessions depending on their indicated needs.

WHAT IS COVERED IN SESSIONS WITH PARENTS?

Session 1: Review session
During this session, the practitioner will conduct a progress review interview, provide feedback of the results to the parent, and negotiate a treatment plan.

Module 1: Practice sessions
(up to three 40-60 minute sessions)
These sessions are preferably conducted in the family’s home or a community setting. They provide the parent with opportunities to practise and receive personalised feedback on how they apply skills introduced in Level 4 Triple P.

Module 2: Coping skills
(up to three 60-90 minute sessions)
During these sessions, the parent learns a range of cognitive and behavioural strategies to manage mood and to cope with everyday stress. They learn how emotions work, relaxation techniques, how to monitor thoughts and challenge unhelpful or irrational thoughts, and develop coping plans.

Module 3: Partner support
(up to three 60-90 minute sessions)
During these sessions, parents learn a variety of positive communication, problem solving, and conflict resolution skills to enhance their teamwork as parenting partners.

Module 4: Maintenance and closure sessions
Parents practise all skills in this session with minimal support and are introduced to ideas to maintain changes. They review their progress through the programme and set goals for the future.

HOW MUCH TIME IS NEEDED TO DELIVER THE INTERVENTION?
In addition to consultations, the practitioner should allow time for preparing for the sessions and supervision. Please see the table below for an approximate delivery guideline time for each group.

| PEER SUPPORT | n/a (combined with Level 4 course) |
| TOTAL TIME | 4½ days |

An Extension Course is available, please contact your Triple P representative for more information.

DO PRE-REQUISITES APPLY?
Practitioners must have completed a Level 4 Triple P Provider Training Course. This course includes training in Cognitive Behaviour Therapy (CBT) strategies and experience in this area is an advantage when completing the course.

WHAT ARE THE PROVIDER LEARNING OUTCOMES?
• Assessment of personal and relationship adjustment of parents.
• Specific strategies for improving personal coping skills and reducing parental stress, anxiety and depression.
• Reducing parenting conflict, improving parents’ communication skills and promoting partner support.
• Helping parents develop independent problem solving skills.
• Strategies for promoting generalization and maintenance of behaviour change.

WHAT RESOURCES DO PRACTITIONERS RECEIVE?
Each practitioner will receive a copy of the following Triple P practitioner resources at training:
• Practitioner’s Kit for Enhanced Triple P (includes Practitioner’s Manual, and Every Parent’s Supplementary Workbooks).
• Supporting your Partner [DVD].
• Coping with Stress [DVD].
PATHWAYS TRIPLE P

WHAT IS PATHWAYS TRIPLE P?
Pathways Triple P has been developed as an intensive intervention programme for parents who have difficulty regulating their emotions and as a result are considered at risk of physically or emotionally harming their children. Pathways Triple P requires parents to have received Level 4 Triple P sessions teaching them positive parenting and child management skills. The Pathways Triple P programme can be completed in either a group or on an individual basis over two to five 60-90 minute sessions. There are three core modules that provide parents with support and to learn new attributional styles and anger management techniques that will assist in improvement and/or maintenance of positive parenting skills.

WHO IS IT FOR?
Parents who benefit are those who have difficulty regulating their emotions or persistently make misattributions about reasons for their child’s behaviour and as a result are considered at risk of physically or emotionally harming their children. They have usually completed a Level 4 programme and need further personal support to improve or maintain positive parenting skills.

WHAT IS COVERED IN SESSIONS WITH PARENTS?

Module 1, Session 1: Parent traps
During this session, parents learn to identify parent traps, understand the impact of their own behaviour on their children, and identify dysfunctional attributions.

Module 1, Session 2: How to get out of a parent trap
This session covers the reasons parents get caught in parent traps and teaches parents thought switching and breaking out of a parent trap.

Module 2, Session 1: Recognising and understanding anger
This session introduces cognitive behavioural strategies to recognise and understand anger, how to stop anger escalating, abdominal breathing and other relaxation techniques, and planning pleasurable activities.

Module 2, Session 2: Managing your anger
During this session, parents will learn to catch unhelpful thoughts, develop personal anger coping statements, challenge unhelpful thoughts, and develop coping plans for high risk situations.

Module 3: Maintenance and closure
This final session focuses on how parents can maintain changes, problem solve for the future, and create future goals.

HOW MUCH TIME IS NEEDED TO DELIVER THE INTERVENTION?
In addition to consultations, the practitioner should allow time for preparing for the sessions and supervision. Please see the table below for an approximate delivery guideline time for each group.

DO PRE-REQUISITES APPLY?
Practitioners must have completed a Level 4 Triple P Provider Training Course. This course includes training in Cognitive Behaviour Therapy (CBT) strategies and experience in this area is an advantage when completing the course.

WHAT ARE THE PROVIDER LEARNING OUTCOMES?
• Advanced assessment of child and family functioning.
• Identification of indicators suggesting the presence of additional risk factors within families.
• The delivery of interventions targeting additional risk factors, including anger management training and cognitive restructuring skills.
• Strategies for promoting generalisation and maintenance of behaviour change.

WHAT RESOURCES DO PRACTITIONERS RECEIVE?
Each practitioner will receive a copy of the following Triple P practitioner resources at training:
• Practitioner’s Kit for Pathways Triple P (includes Practitioner’s Manual, CD with Group Pathways PowerPoint presentations, and Pathways to Positive Parenting Modules).
• Coping with Stress [DVD].
WHAT IS FAMILY TRANSITIONS TRIPLE P?
Family Transitions Triple P is designed for parents who are experiencing personal distress from separation or divorce, which is impacting on or complicating their parenting. During five sessions, Family Transitions Triple P assists parents who need extra support to adjust and manage the transition of separation or divorce. It focuses on skills to resolve conflicts with former partners and how to cope positively with stress.

WHO IS IT FOR?
Parents who benefit from this programme are those who have been or are going through separation and divorce where there are unresolved conflicts and difficulties communicating effectively with former partners. Parents may be concerned that the separation or divorce is upsetting their children or they may want to learn ways to talk to their children about it and teach them ways to cope. Parents who do this course usually have concurrent concerns about their child’s behaviour.

WHAT IS COVERED IN SESSIONS WITH PARENTS?
Session 1: Divorce - a family transition
During this session, parents learn about parent traps during separation and divorce, how to talk to their children about separation and divorce, and how to help children manage their emotions.

Session 2: Coping with emotions (1)
Parents learn to identify unhelpful emotions (e.g. stress, anxiety, anger) and the link between these unhelpful emotions and parenting. Coping skills and relaxation strategies will also be discussed during this session.

Session 3: Coping with emotions (2)
This session teaches parents how thoughts influence emotions and how they can challenge those automatic unhelpful thoughts. They will also learn coping strategies and how to take care of themselves.

Session 4: Managing conflict
During this session, the practitioner introduces parents to a model of conflict and explains different conflict response styles. Parents will learn assertive communication skills, how to hold a child-related discussion with their former partner, problem solving techniques, and develop a parenting plan.

Session 5: Balancing work, family and play
During this session, the practitioner discusses developing a new family identity, social support, and new romantic relationships.

Note: These five sessions may be followed by a Level 3 or 4 Triple P programme.

HOW MUCH TIME IS NEEDED TO DELIVER THE INTERVENTION?
In addition to consultations, the practitioner should allow time for preparing for the sessions and supervision. Please see the table below for an approximate delivery guideline time for each group.

DO PRE-REQUISITES APPLY?
This course includes training in Cognitive Behaviour Therapy (CBT) strategies and experience in this area is an advantage when completing the course. Assumes an organisation has established a successful referral process for families requiring further assistance (either to in person or online Triple P programmes).

WHAT ARE THE PROVIDER LEARNING OUTCOMES?
• Assessment of personal adjustment in parents following divorce.
• Specific strategies for improving personal coping skills and reducing parenting stress, anxiety and anger.
• Specific strategies for reducing conflict between parents and improving communication.
• Strategies for promoting work, family, and play balance, and gaining appropriate social support.
• Helping parents develop independent problem solving skills.

WHAT RESOURCES DO PRACTITIONERS RECEIVE?
Each practitioner will receive a copy of the following Triple P practitioner resources at training:
• Family Transitions Triple P [DVD].
WHAT IS GROUP LIFESTYLE TRIPLE P?
Group Lifestyle Triple P is an adaptation of Level 4
Group Triple P and is a multi-component intervention for
families with overweight or obese children. The aim of the
programme is to help parents develop effective strategies
for managing their child’s weight by introducing gradual
permanent changes to their family’s lifestyle (e.g. healthier
family eating, increased physical activity). Group Lifestyle
Triple P consists of ten 90-minute group sessions and four
telephone support calls.

WHO IS IT FOR?
Parents who benefit are those who have children aged
between 5 and 10 years and are concerned about their
child’s weight and activity level. Parents need to be able to
commit to up to 6 months of regular contact and be willing
to make changes in their whole family’s lifestyle.

WHAT IS COVERED IN SESSIONS WITH PARENTS?

Session 1: Preparing for change
This session covers working as a group, what ‘overweight’
means, how it can be treated, readiness for change, and
keeping track.

Session 2: Increasing self-esteem and understanding
nutrition
During this session, parents learn about increasing their
child’s self-esteem, changing eating behaviours, food
groups, nutrients, daily food serves, and nutrition goals.

Session 3: Encouraging healthy behaviour and
understanding physical activity
During this session, parents will learn to encourage healthy
behaviour, trying new foods, the importance of physical
activity, how to set physical activity goals, increase incidental
activity, and reduce sugar intake.

Session 4: Using rewards and modifying recipes
This session covers motivating children to be healthy, the
different types of fat, and how to reduce fat intake.

Session 5: Limiting sedentary activity and reading food
labels
During this session, parents will learn to reduce television
and computer time, prevent problem behaviour, and
understand food labels.

Session 6: Playing active games
This session covers increasing energetic play.

Session 7: Providing healthy meals and snacks
During this session, parents will learn how to manage
hunger and overeating, prepare healthy food, and increase
involvement in sport and other activities.

Session 8: Managing problem behaviour
During this session, parents will learn how to manage
problem behaviour, develop parenting routines, and prepare
for the weekly telephone sessions.

Session 9-10: Using Lifestyle Triple P strategies
These telephone consultations will provide the parent with
an opportunity to update the practitioner with their family’s
progress and discuss any issues.

Session 11: Planning ahead
During this session, parents will learn about family survival
tips, high-risk situations, planned activities, and prepare for
fortnightly telephone sessions.

Session 12-13: Using planned activities
These telephone consultations will provide the parent with
an opportunity to update the practitioner with their family’s
progress and discuss any issues.

Session 14: Programme close
Parents return for a final group session to review progress,
look at ways to maintain the healthy changes, plan for the
future, and to bring closure to the programme.

HOW MUCH TIME IS NEEDED TO DELIVER THE
INTERVENTION?
In addition to consultations, the practitioner should allow
time for preparing for the sessions and supervision. Please
see the table below for an approximate delivery guideline
time for each group.

DO PRE-REQUISITES APPLY?
No Triple P Pre-requisites apply. However, it is desirable that practitioners have some knowledge of child development, physical science and food nutrition to undertake this training.

WHAT ARE THE PROVIDER LEARNING OUTCOMES?
• Monitoring child growth using height, weight and BMI (Body Mass Index)  
• Assessing child and family functioning  
• Strategies for promoting generalization and maintenance of behaviour change  
• Use of active skills training strategies in a group format  
• Group dynamics and common process issues  
• Telephone support consultations with parents  
• Identification of indicators suggesting more intervention is required and appropriate referral procedures.

WHAT RESOURCES DO PRACTITIONERS RECEIVE?
Each practitioner will receive a copy of the following Triple P practitioner resources at training:
• Every Parent’s Survival Guide [DVD].
TRIPLE P ONLINE

WHAT IS TRIPLE P ONLINE?
A broad-based parenting intervention delivered online for parents of children up to 12 years. The programme involves eight (1-hour) online modules that parents complete independently in their own time, from a computer, tablet or smartphone. Parents have online access to complete the programme for 12 months. Triple P Online introduces users to Triple P’s 17 core parenting skills – simple strategies to encourage positive behaviour and to prevent and manage misbehaviour. The programme teaches parents to apply these principles to specific situations, and includes strategies for partner support and coping with stress. The video-enriched programme aims for a balance of simplicity and interactivity to promote parental engagement and completion of the programme.

WHO IS IT FOR?
Parents who prefer an online programme or are more suited to completing an online programme for reasons such as busy schedules, geographical isolation, or inability to attend regular parenting courses. The programme can be used to prevent problems from developing or for parents of children with significant social, emotional or behavioural problems.

WHAT IS COVERED IN THE PROGRAMME?

Module 1: What is Positive Parenting?
Lays the foundations with the five basic principles of Triple P:
- Create a safe and interesting environment
- Create a positive learning environment
- Use assertive discipline
- Have realistic expectations
- Take care of yourself

Module 2: Encouraging behaviour you like
Focuses on ways to help get more of the behaviour parents like, and less of the behaviour they don’t like. Gives information, tips and activities on:
- Quality time
- Paying attention
- Showing affection
- Talking with your child
- Descriptive praise
- Interesting activities

Module 3: Teaching new skills
Covers the key skills that children need, such as:
- Communicating and getting on with others
- Managing their feelings
- Becoming independent
- Solving problems
Parents will also learn ‘incidental’ teaching to help encourage language development, increase general knowledge and promote independent play.

Module 4: Managing misbehaviour
Provides information, tips and strategies for managing misbehaviour, including:
- Ground rules
- Directed discussion
- Planned ignoring
- Clear, calm instructions
- Consequences
- Quiet time
- Time-out

Module 5: Dealing with disobedience
Provides insights and strategies on:
- Why children behave the way they do
- Common parent traps that inadvertently reward disobedience
- The most effective way to give instructions
- The importance of consequences
- How to use quiet time and time-out effectively

Module 6: Planning ahead to prevent problems
This module helps parents to prevent problems through the following strategies, including:
- Planning ahead at home and away from home
- Planning for high-risk times
- Preparing in advance
- Deciding on rules
- Choosing interesting activities
- Using rewards for good behaviour and consequences for misbehaviour
- Having follow-up discussion

Module 7: Making shopping fun
This module provides tips and strategies for going shopping, including:
- Why children misbehave
- Planning ahead
- Encouraging good behaviour
- Dealing with difficult behaviour

Module 8: Raising confident, capable kids
Provides tips and key points on:
- Raising confident, capable kids
- Showing respect
- Being considerate
- Developing good social skills
- Developing healthy self-confidence
- Being a problem-solver
- Becoming independent
WHAT RESOURCES DO PARENTS RECEIVE?
Each family receives a Triple P Online access code. Within the programme, a text summary of the content is continuously imported to an individualised workbook, which parents can print or email. Parents also receive worksheets, podcasts (English versions only), and emailed module summaries.

HOW MUCH TIME IS NEEDED TO DELIVER THE INTERVENTION?
A practitioner is not required to deliver the intervention, unless telephone support is to be provided to families completing Triple P Online. Telephone support time can be estimated at one hour per family requiring support (up to four 15-minute telephone calls). Telephone support is an optional service that agencies can provide to parents.

HOW DO PARENTS ACCESS THE INTERVENTION?
Each user requires a unique access code to operate Triple P Online. Agencies can either purchase access codes in bulk and provide these to parents, or parents can purchase an access code directly from the Triple P parent website. Additional support options are available to promote Triple P Online and facilitate access code distribution. These may include digital parent assessment measures, a data dashboard that reports on user progress, digital and print media, or a website landing page.

POSITIVE EARLY CHILDHOOD EDUCATION PROGRAM

WHAT IS THE POSITIVE EARLY CHILDHOOD EDUCATION PROGRAM?
The Positive Early Childhood Education (PECE) Program is an online professional learning programme, designed to build educators’ knowledge, confidence and skills and enhance educators’ self-efficacy in implementing strategies that promote children’s development, social competence and self-regulation. The overall goal is to support educators in engaging with children in a positive and supportive way, that encourages them to reach their potential.

Centre directors, lead teachers, supervisors, or consultants complete face-to-face training, where they learn the content of the online programme and the consultation skills necessary to facilitate practice sessions with educators using a self-regulatory approach to become a PECE Coach.

Educators complete four 1-hour online modules (PECE Online), including video modelling, interactive activities, and key take away messages to help educators acquire new knowledge and skills, self-evaluate their performance and set themselves goals for change. This is followed by two to four practice sessions with a PECE Coach.

WHO IS IT FOR?
PECE Online is designed for professionals in the early childhood education sector, including early childhood education and care centres, preschools, home-based child care and after school care. PECE Coach Training is suitable for centre directors, lead teachers, supervisors, consultants, or others in a position to support professional learning.

WHAT IS COVERED IN PRACTICE SESSIONS WITH EDUCATORS?
The practice sessions are designed to assist educators with the practical implementation of the PECE Program strategies introduced in the online programme. After observing educators interacting with children, coaches provide clear, specific and helpful information about their interaction and support educators’ use of skills such as self-tracking, self-identification of strengths and areas for improvement, problem solving, and the self-selection of future goals for change. Each session is approximately 40-50 minutes in length. The number of sessions required will vary, however two to four sessions are usually sufficient.

HOW MUCH TIME IS NEEDED TO DELIVER THE PRACTICE SESSIONS?
Please see the table below for an approximate delivery guideline time for practice sessions.

DO PRE-REQUISITES APPLY?
No pre-requisites are required. Coaches will not be trained to deliver Triple P. It is recommended Coaches have established a successful referral process for families requiring assistance (either in person or online Triple P programmes).

An Extension Course is available for PECE Coaches also interested in delivering Triple P. The Extension Course can be added to Primary Care, Primary Care Stepping Stones, Group, Group Stepping Stones, Standard, or Standard Stepping Stones Triple P. Please contact your Triple P representative for more information.
WHAT ARE THE COACH LEARNING OUTCOMES?

- Be familiar with the content, structure and rationale of the PECE Program.
- Be familiar with assessment procedures suitable for early childhood education and care settings.
- Describe specific positive childcare strategies for promoting children’s development, social competence and self-control.
- Be skilled at using the self-regulatory approach to provide educators with constructive feedback regarding implementation of strategies.
- Be able to use behavioural rehearsal to help educators practice strategies and routines.
- Be equipped to understand and address educator resistance and other common process issues.
- Have a plan for implementing the programme in your workplace (identify educators requiring more coaching support or external assistance and be aware of appropriate options in their community).

WHAT RESOURCES DO COACHES RECEIVE?
Each coach will receive a copy of the following resources at training:

- Facilitator’s Manual for Positive Early Childhood Education.
- PECE Online Access Code.
- Participant Notes.
